**Product Description**

ACIDOMATRIX™ PRO is a dustless, granulated preservative premix containing formic acid, sorbic acid and fumaric acid as well as their salts.

**Use and Benefits**

In addition to its preserving effects, ACIDOMATRIX PRO stabilizes the intestinal microflora of monogastric animals, thereby ensuring animal health and performance. The marked inhibitory effects of ACIDOMATRIX PRO on potentially pathogenic bacteria originate from the concerted action of the used preservatives formic, sorbic and fumaric acids.

**Dosage recommendation**

**Specification**

- **Colour**: white
- **Structure**: granulated
- **Flowability**: ≤ 3 (Novus PN-Flow-02)
- **Active substances**: Category: Technological Additives
  Functional groups: Preservatives
- **Per Analysis**
  - Formic acid (E-236): 250,000 mg/kg (HPLC)
  - Sorbic acid (E-200): 100,000 mg/kg (HPLC)
  - Fumaric acid (E-297): 100,000 mg/kg (HPLC)

**Legal classification**

Premixture

**Storage/Shelf life**

A minimum shelf life of 12 months as from date of manufacture can be achieved if the product is stored in original sealed bags under cool and dry conditions. Protect from freezing.

**Handling / Safety**

Keep packages tightly closed, open with care, follow instructions on the material safety data sheet.

**Packaging**

- Big Bag with polyethylene liner - 1,000 kg net
- Paper-polyethylene bag - 25 kg
